

## JetBox 9300/9310 SW Release Note

### Before Upgrade

Before you use the SW, please ensure that you know the applied product models and use the correct software version. By reading the file, you can know the new features, changes, the fixed bugs or the restrictions. You can always find the latest software in the Korenix web site, <http://www.korenix.com> or get help from Korenix Customer Support, [Korecare@korenix.com](mailto:Korecare@korenix.com).

Version	Release Date	Models
<b>JB9310-v13.bin</b> (boot loader: u-boot.bin.gz V0.3)	Jun.19, 2008	JetBox 9300, JetBox 9300w JetBox 9310, JetBox9310w
<b>JB9310-v12.bin</b> (boot loader: u-boot.bin.gz V0.3)	Mar. 31, 2008	JetBox 9300, JetBox 9300w JetBox 9310, JetBox9310w

### Description of Change

#### Second official release (JB9310-v13.bin)

New features release as follows:

1. Auto-run function and autorun.sh update function in CLI
2. Monitoring and auto-recovery for applications

Please refer to the user manuals for detailed function descriptions.

 **Notice1:** Before you update SW1.3, you need to backup your configuration file. After Upading to SW1.3, you need to reset the JetBox to factory default to active the autorun function and then restore your configuration file into the JetBox.

 **Notice2:** Associated with SW1.3, following items are included in the CD-ROM of the JetBox package:

1. User manuals:
  - A. HW
  - B. AutoRun
  - C. UI
  - D. Modbus Gateway (optional SW)
  - E. VCOM commander
2. JetView.exe
3. VCOM commander.exe
4. Autorun.sh editor (for example: metapad.exe)
5. Private MIB

## 6. Linux SDK for Fedora

### **First official release (JB9310-v12.bin)**

All features provided in user interface are described in JetBox 9300-9310\_UI\_0.0.6 user manual.

The features provided in Linux environment are reserved and will be released case by case for advanced Linux customers.
