

2017 Korenix Certification Engineer Program

1. Purpose

Korenix committed to providing high quality products and service with comprehensive industrial technology to all users. With experience of global channel strategy, Korenix developed the KCE Program, Korenix Certification Engineer Program, since 2005. In the KCE program, Korenix will introduce new platform design and features. The KCE program also includes technical training lectures with selected subjects and grouping hands-on practice, which are highly practical for local supporting service. It is a good opportunity to meet Korenix team face-to-face and enhance our connection.

2. Registration

Korenix sales will send the invitation with registration link.

If you have questions, or would like to join KCE, please contact your Korenix sales window first.

If you don't have one, please reach below

- Vicky Chou vicky@korenix.com
- Ben Liu ben@korenix.com
