

Product Phase out Notification

Dear Partners,

Korenix really appreciates your great support on industrial networking business. According to the EOL terms, Korenix will phase out the following embedded computer product. We only accept special project-based production of minimum 200pcs order. Please contact your sales window for detailed information.

JetBox 9530 Embedded PoE VPN Router Computer: 1 WAN, 4 PoE

For new industrial embedded computer projects, we suggest following solution:

JetBox 5630Gf-w / 5633Gf-w Industrial VPN Router Computer with GbE/SFP

1. High performance 720MHz CPU with HW engine to enhance VPN performance
2. Abundant interfaces: Gigabit RJ45 LAN, Gigabit RJ45/SFP combo WAN, Multi type serial RS232/422/485, USB 2.0, SD
3. Complete Layer 3 high speed routing: Static, OSPF, RIP
4. Network security: OpenVPN, IPsec VPN, L2TP v3
5. Extra USB with holder for Wifi, 3G/4G, GPRS, GSM dongles (*JetBox 5633Gf-w*)
6. Modbus TCP to RTU gateway for serial device control, Modbus to SNMP gateway to monitor devices through network management tools
7. Linux ready platform & Linux SDK easy for development
8. Set & Go WebUI: VPN, Routing, Wireless, Modbus Gateway
9. Wide range power input DC 9~36V with reverse protection
10. Approach Vertical market: Railway track side EN50121-4, Heavy industrial EMC
