

Product Phase out

Notification

Korenix will phase out following non-superior products.

1. JetNet 5008G-P Industrial 6-port 10/100 TX +2 -G Managed Embedded Switch Board

The production of JetNet 5008G-P will be executed according to EoL (End of Life) terms, so if you have any inquiry, please contact your sales window for the last shipment till 2010/06/30. We accept project based production of min. 100pcs order.

For new Industrial Embedded Managed Board Switch projects, we suggest JetCard 5010G-P with following advanced features:

Industrial 8+2G Gigabit Managed Ethernet Switch

- Embedded Managed Switch Board with 127.4 mm (W) x 122.5mm(D), under 30mm(H) board size
- 8 10/100Base-TX plus 2 Gigabit SFP ports (1000Base-X Fiber)
- 3.3V DC Power Input socket
- 12.8Gbps Non-Blocking performance, 8K MAC address table
- Jumbo Frame up to 9,216 Bytes
- Korenix Multiple Super Ring and RSTP for network redundancy
- LLDP for network topology live update, SNMPv1/v2/v3c, RMON for remote management
- Work with JetView Pro Network Management Software
- Up to 256 802.1Q VLAN, IGMP Snooping, GMRP, port Trunking, LACP, DHCP Server, DHCP Option 82 and Rate Control
- Advanced security supports 802.1x and Access Control List
